Program Change

Monday:

Open HF theory - I - Building 50, Auditorium (14:00-15:30)

-Conveners: Xin-Nian Wang

time	[id] title	presenter
14:00	[7] STAR open heavy flavor measurements	YE, Zhenyu
14:30	[8] Linear Boltzmann Transport calculations of heavy flavor production	CAO, Shanshan
15:00	[9] Heavy flavor transport in QGP	GRECO, Vincenzo

Tuesday:

Quakonia production - I - Building 50, Auditorium (14:00-16:00)

-Conveners: Hans Georg Ritter

time	[id] title	presenter
14:00	[36] Quarkonia production in p+p collisions	KNIEHL, Bernd
14:30	[20] Polarization of quarkonium in p+p and h+A	CHEUNG, Vincent
15:00	[38] Heavy flavor and quarkonium production in pp and pA collisions using the small-x CGC framework	WATANABE, Kazuhiro
15:30	[21] Heavy flavor hadron spectroscopy	YIN, Hang
